MUHAMMAD MUTTAHAR SHIEKH

A190, Sector 14-B, Shadman Town, North Karachi, Karachi. | +92 316 2327803 |
itxmuttahar@gmail.com

Objective:

Full-Stack Developer specializing in **MERN stack and backend server-side development** with proven experience delivering scalable web and mobile applications. Expert in building RESTful APIs, authentication systems, database design, and optimized server performance. Skilled in React.js, Next.js, Node.js, Express, and MongoDB with additional experience in React Native for mobile development. Strong focus on performance optimization, clean code, and delivering solutions that meet business goals.

Education:
University:
BS in Computer Science (Karachi university UBIT)
Expected Graduation: 2028
Intermediate:
Government Dehli College (2022-2024)
Matric:
Metropolis Education System (2020 - 2022)

Professional Experience:

Junior Developer | Saylani Tech
Jan 2025 – Present
- Developed **Travelphoria:** an AI-powered travel planner with chatbot integration, hotel booking, and dynamic place suggestions using APIs, boosting user engagement by 40%.
- Designed and implemented **backend services** including user authentication, booking workflows, and server-side API integrations with Express.js and MongoDB
- Contributed to e-commerce modules such as **shopping cart, order management, and secure payment gateways** (Stripe, PayPal APIs)
- Deployed and maintained cloud-hosted servers with optimized API performance and database indexing
- Collaborated with cross-functional teams in an agile environment to deliver production-ready apps

Freelance Projects | Full-Stack Developer (2023 – Present)

- **Beneficiary Management App**: Designed backend authentication with JWT, role-based access, and RESTful APIs using Express.js and MongoDB
- **SCS Mining App**: React Native Expo app with rewarded ads, mining timer logic, and server-based session management
- **Blogify**: Firebase-powered blog app with backend push notification services and deep linking
- **Travelphoria**: AI-powered travel planner featuring chatbot backend services, hotel booking management, and scalable APIs

SKILLS:
Technical Skills:
- **Front-End**: JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Bootstrap.
- **Back-End & Server-Side**: Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT authentication, server deployment (Heroku, Vercel, Netlify)

Key Achievements:
- Delivered **5+ full-stack apps** with complete frontend + backend deployment pipelines
- mobile app user retention by **25%** through backend-driven notifications and UX workflows

Additional Skills:
- **MobileDevelopment**:ReactNative, Expo
- **Build Tools**: Webpack, Babel, NPM, Yarn
- **VersionControl&Collaboration**:Git ,GitHub, Agile/Scrum
- **Other Tools**: Postman, Firebase, MS Office, Canva
